

Welcome, Charles warden!

Discovery can be fun, and we're excited you want to learn more about yourself.

Every day you're making decisions about what to eat. Now with insights about your genes, you'll be able to make even smarter decisions. Whether you're in a grocery store, a farmer's market, or your neighborhood restaurant, you now have the power to personalize your nutrition based on your genetic results.

Enjoy Eating for Your Genes!

Your Recommended Macronutrient Intake

Total Carbohydrates

55-63% of your daily caloric intake should come from mainly complex carbohydrates such as fruits, vegetables, and starchy grains.

Protein

19-25% of your daily caloric intake should come from quality proteins such as those found in your meat, seafood, legumes, and other protein categories on your My Foods page.

Total Fat

22-30% of your daily caloric intake should come from healthy fats such as those found in the fats and oils on your My Foods page.

ALL RECOMMENDATIONS**TOP VEGETABLES**

Artichoke
